

Consistency on Semantic Linked Repositories

- Linked Data involves Datasets and Linksets
- Linksets connect datasets
- Linksets needs to be maintained

DBpediaSameAs

CEDAL

Identifying and querying LOD datasets

- Heterogeneous datasets
- Non-dereferenceable URIs
- offline endpoints
- Incomplete data

WIMU

wimuQ

Integration of LOD datasets

- Different ontologies
- Dataset similarity
- No place to store info about the dataset relations

MFKC
